1. Applicant's election with traverse of Group I in the reply filed on June 14, 2007 is acknowledged. The traversal is on the grounds that searching all of the inventions would not place serious burden on the examiner. This is not found persuasive because searching all of the groups would place serious burden on the examiner. As set forth in the restriction requirement, the groups are directed to materially different compounds and thus would require a separate search(es) for each of the groups, thus placing serious burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 12-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 6-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 6 is dependent on claim 1 and recites a formula (A) that is broader than the compound set forth in claim 1. The same renders claim 6 unclear and indefinite. Claims 7-9, dependent on claim 1, fall therewith.

5. The following is an examiner's statement of reasons for allowance: none of the prior of record teach the compound set forth in claim 1 in a negative electrode in a nonaqueous battery. The closest prior art, JP-2003-197188, teaches a CeCuSn

electrode material for a battery, which compound is materially different than the claimed compound.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John S. Maples whose telephone number is 571-272-1287. The examiner can normally be reached on Monday-Friday from 6:30-3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
